

In the play written by the German Emperor to be performed in honor of the King of Italy, the rising sun appeared in one of the tableaux of Rome, but it was found that the orb came over St. Peter's, leaving the royal palace in the shadow. The Emperor, therefore, as a matter of international courtesy, has ordered the sun to be left out.

Dews are less abundant on islands than on ships in midocean. Seamen can, therefore, tell when they are nearing land by reason of the smaller deposit of dew on the vessel.

Cure Corns With Physic.
Might as well try that as to attempt the cure of Tetters, Eczema, Ringworm and other skin diseases with blood medicine. Tettering is the only absolutely safe and certain remedy. With it cure is sure. It's an ointment. 50 cents at drugist, or by mail for 90c. In stamps from J. T. Shuprine, Savannah, Ga.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it a curable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only catarrh cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. There is no danger of its use for any case it fails to cure. Send for circulars and testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc. Hall's Family Pills are the best.

NEW ADJUTANT GENERAL.
General Samuel Breck, Who Succeeded General Ruggles.
Gen. Samuel Breck, who has been appointed adjutant general of the army, to succeed Gen. Ruggles, has had a distinguished career. He has had forty-two years of service, and his new honor comes to him only a few months before his retirement by operation of law. Gen. Breck was born in Middleborough, Mass., Feb. 25, 1834. He was appointed

ed a cadet at the military academy July 1, 1851, and was graduated four years later and made second lieutenant of the First artillery. He joined his regiment at Fort Capron, Florida, and fought against the Seminoles. He served at Fort Moultrie, and in 1860 became principal assistant professor of geography, history and ethics at the military academy until the war broke out. He was assistant adjutant general of McDowell's division, Army of the Potomac, in the defenses of Washington. After active service in the field he was made assistant in the adjutant general's office in 1862. He was twice brevetted during the war, first as lieutenant colonel in 1864 and as colonel and brigadier general in 1865. From 1870 to 1876 he served as adjutant general of the division of the Pacific at San Francisco. He also served in the department of Dakota and the department of the Platte. He returned to Washington in 1889 to act as assistant to the adjutant general. He served as adjutant general of the department of the east from 1893 to 1895. When Gen. Miles was made commander of the army Gen. Breck was assigned to duty as adjutant general with headquarters of the army in the nation's capital.

Novel Small Change.
A very interesting report on the trade of Adis Ababa, Abyssinia, compiled by Mr. Rennell Rodd, has just been issued by the foreign office.

The products exported from that part of the country are gold, ivory, civet, wax and coffee. The market for the two former is largely controlled by the Emperor Menelik, who receives his tribute in this form. This partial monopoly and the competition of merchants importing goods from the coast to obtain gold to send back have driven up the value, and gold has nearly doubled in price since last year. The value of ivory has also advanced.

Dealing with weights and currencies, Mr. Rodd adds that it is remarkable that the prestige of the Emperor Menelik has not succeeded in popularizing the new dollar stamped with his head. The only small change for the dollar consists either of rifle cartridges or of pieces of rock salt some eight inches long, tapering to either end, and about two inches broad in the thickest part. Cartridges have come into use as small change of recent years, but they are easily tampered with, charcoal being substituted for the powder, and are, therefore, an unsatisfactory medium of exchange.—London Mail.

Complaint is made that the roads running out of Washington are in poor condition. Why should not the National capital be the centre of good roads, and all streets and highways in the District of Columbia be so built and cared for that they would be of interest to innumerable visitors, and perpetual object-lessons?

NEW CABINET OFFICER.
Governor John W. Griggs, of New Jersey, to Become Attorney-General.

HE WILL SUCCEED M'KENNA.

Official Announcement of the Coming Change Made by President McKinley.—The Appointee Will Take Office When McKenna Enters the Supreme Court.—To Resign as Governor on January 11.

WASHINGTON, D. C. (Special).—It was officially announced at the White House on the return of the President to Washington from Canton that Governor John W. Griggs, of New Jersey, has accepted the office of Attorney-General of the United States, which will be vacated by the nomination of Attorney-General McKenna to be Associate Justice of the United States Supreme Court to fill the vacancy caused by the retirement of Justice Stephen J. Field. Governor Griggs announced soon afterward at his home in Paterson, N. J., that he had received and accepted the office of Attorney-General.

GOVERNOR J. W. GRIGGS, OF NEW JERSEY. (He will in January succeed Joseph McKenna as Attorney-General of the United States.)

As to his resignation of the Governorship, Mr. Griggs said it would not be tendered until the convening of the New Jersey Legislature on January 11 next. This action is made possible by the fact that the office of Attorney-General will probably not be vacant before that time, as in due course of events Mr. McKenna's confirmation as Associate Justice of the Supreme Court will necessitate delay. In that event none of the complications incident to the immediate resignation can happen, and the provisions of the Constitution making the President of the Senate acting Governor would be carried out.

When asked who he thought would be the presiding officer of the incoming Senate, Mr. Griggs remarked that, from reports published Senator Foster M. Voorhees, of Union County, seemed to have promises for the majority of votes.

John William Griggs was born in Newton, Sussex County, N. J., on July 10, 1849, and was graduated from Lafayette College in 1868. After leaving college he became a student in the law office of Robert Hamilton, in Newton, and, in 1871, removed to Paterson, where he resumed the study of law in the office of Socrates Tuttle. He was admitted to the bar in 1871. Four years later he was elected to the House of Assembly from Passaic County. In 1877 he was again elected to the House of Assembly, but the following year he was defeated. For several years he devoted himself to building up his private practice. In 1882 he was elected State Senator, being re-elected in 1884, and again two years later. In the Senate of 1886 he was elected to the Presidency.

In 1895 Mr. Griggs was elected Governor over Alexander T. Merrill by a plurality of 29,390 votes, being the first Republican Governor elected in New Jersey in twenty-five years. Governor Griggs is a keen lover of athletics, and is especially fond of sport with rod and gun. He is, besides, a good golf player, being a member of the Paterson Golf Club. At indoor amusements he is as proficient as in outdoor. He has for years played on the crack team of the Paterson Chess Club, and taken part in numerous State whist tournaments. He is a member of the Hamilton Club, of Paterson, and of the Union League Club of New York City. Governor Griggs is identified with several business institutions of Paterson, being President of the Paterson National Bank and also of the Paterson Safe Deposit Company. He is married and has six children, four daughters and two sons, one of whom is a student in Lafayette College.

KILLED WIFE AND HIMSELF.

The Murderer Wanted His Victim to Support Him; She Refused.
Louis Zuegler shot and killed his wife at Milwaukee, Wis., and then killed himself by swallowing a dose of carbolic acid. Two years ago his first wife procured a divorce because he abused her. Soon after he tried to kill her, and achieved such notoriety that he changed his name to Albert Krueger, under which name he has been living ever since.

Last January he married a widow at Richfield, Wis., and soon after he demanded that she support him. Several weeks ago she refused to longer provide for him, and ordered him to leave the house. She began proceedings for divorce, whereupon he got into her home one night and tried to kill her, but on her promise to live with him he spared her.

He again entered her house while she was preparing breakfast, and without a word of warning shot her dead. He then drank carbolic acid and escaped, but two blocks from the house fell to the ground, unable to proceed. The police found him and took him to the hospital, where he died at noon. He was fifty-one years old and his victim was forty-five.

Accused of Many Murders.
Zanolli, the barber, of many names and addresses, who obtained insurance money on the lives of seven persons, six of whom were his relatives, was arraigned in a police court in New York City and remanded as a suspicious person. The police are investigating the deaths of the persons from whose deaths he profited.

RUSSIA FEARS MOSLEMS.
Great Unrest in Asiatic Provinces and an Outbreak Imminent.

Throughout Russian Asia there is general unrest among the Moslems. It is attributed to the exaggerated reports of the Turkish victory over the "great Greek empire," which have spread through the Continent. The authorities even fear that the revival of brigandage recently noticed in the Caucasus is directed almost solely against the Government officials. The danger is so serious that a conference of Caucasian Governors has been convoked to concert measures of pacification.

Travelers in Central Asia report an extraordinary ferment among the Moslems of different races. They are sinking their mutual animosities and declaring that they are first of all Mahometans, with the Sultan as their common chief.

It is evident that the slightest pretext would suffice to bring about an uprising and to plunge Russia into the troubles which have harassed India.

INSURGENTS CAPTURE A FORT.

Cubans Secure \$30,000 Lying on a Wharf at Calmanera.

It was officially announced from Spanish headquarters in Havana, Cuba, that a "group of rebels" had entered Calmanera, the port of Guantanamo, "favored by the treason of an officer." Calmanera is fifteen miles by rail from Guantanamo, on the Bay of Guantanamo, otherwise Cumberland Harbor.

The insurgent force, the official report adds, consisted of forty guerrillas, volunteers and natives of Cuba. They are alleged to have plundered a store and to have carried off the sum of \$30,000, which was on a wharf, and which had recently arrived at Calmanera from Havana. It is also said that the insurgents killed the police inspectors and two gendarmes on duty, and seriously wounded a Spanish paymaster, Jose Vigil.

More Spanish guerrillas, the official announcement adds, have joined the insurgents.

MURDER IN A COURT HOUSE.

A Leading Lawyer of Louisiana Killed in Cold Blood.

Judge Joseph A. Reid, one of the leading lawyers of the State and brother of District Judge Robert Reid, was assassinated in the Court House at Franklinton, Washington Parish, La.

Reid was in attendance at his brother's court and had just finished arguing a case. He walked down from the courtroom, passing two men on the stairway. As he passed, one of the men whirled around, drew a revolver, and fired three shots. All three bullets struck Reid in the back, penetrating through his chest, and causing instant death.

The assassins ran down the stairway, sprang upon their horses, and took flight. They were followed by a posse of mounted men for five miles and lost sight of. They rode toward Tangipahoa, and had undoubtedly followed Reid from there to Franklinton to kill him.

A NINEFOLD MURDERER HANGED.

The Woman Who Caused the Last of the Series Watched Nesbit's Execution.

Henry Nesbit, colored, was hanged at Irwinville, Ga., for the murder of James Harrington, another colored man. The woman who caused the crime stood in the crowd to watch the fate of her former lover.

Before the black cap was placed over his eyes Nesbit spoke ramblingly. He said that the white race had always been friendly to him, while he owed all his trouble to members of his own race.

"If I could get clear," said he, "I would kill nine colored men."
Nesbit has a record of nine homicides. All his victims were members of his own race. In fact, he seemed to be afflicted with a mania for killing colored people, and always prided himself on the fact. The colored people looked upon his execution with deep satisfaction.

TRAIN ROBBERS BEATEN.

The Leader of the Gang Shot Dead in His Tracks by the Express Guard.

A Southern Pacific train was held up at Stein's Pass, New Mexico, by six bandits under the leadership of Dave Cutler, a notorious rustler. When the train came to a standstill, being signalled by the bandits, Guard Jennings opened fire on them and Cutler died in his tracks. The others, after making an ineffectual attempt to board the train, dispersed. A F. E. Rogers, agent of the American Brewery Company at St. Louis, jumped from the rear coach, and running east two miles built a fire on the track to flag the Sunset Limited, which was due in the neighborhood of the holdup in a few minutes. He succeeded in stopping the Limited. None of the passengers was hurt, and no money or valuables were taken, but all on board had a bad scare.

The Affairs of Ex-Librarian Spofford.

It has been discovered that the shortage of about \$30,000 in the accounts of Alsworth B. Spofford, the former Librarian of Congress, at Washington, was due to his failure to cash money orders received by him in the course of business. Many of these orders have been found, some of which are twenty-two years old, and it is believed that they will make up the shortage in Mr. Spofford's accounts, which he has already made good out of his own pocket.

China Appeals Germany.

The Tsung-li-Yamen, or Foreign Board, has telegraphed to the Viceroy of Pechili to the effect that China, having complied with the demands made upon her by Germany, the latter undertakes to evacuate Kiao Chou Bay on a date to be fixed hereafter, receiving instead of Kia Chou Bay the inlet Saman, in the Province of Fokien, as a coaling station.

Turnell in Spain.

The Carlist organs in Spain daily attack the regency and refer to Don Carlos openly as "El Rey." Senor Sagasta says the United States will find Spain prepared for resistance in the case of intervention in the affairs of Cuba. General Weyler is to make a statement of his policy to the Cortes. The loss of Calmanera is laid to the treason of a Spanish officer.

Bryan in Mexico.
William J. Bryan was given a great ovation upon his arrival in Mexico. He was welcomed by President Diaz and other high officials, and the city of Monterey celebrated his advent with a series of brilliant public ceremonies.

Suits the Tailors.
Felix Faure's tailors made a good thing out of the St. Petersburg visit. It rained every hour of the President's stay in Russia, and consequently his eight dress suits and twelve silk hats were all ruined. When the reception at Dunkirk was given M. Faure on his return home he had to wear a "pressed suit," but that did not so much matter, for there again it also rained in torrents. As he always is the pink of elegance, this continued annoyance must have been as hard to bear as for some fine lady out in a downpour, minus an umbrella and no money for a cab.

Revival of Old Jewelry.
The old style jewelry is coming into fashion again. Women are haunting the old curio shops, trying to find the beautiful old cameos like those worn by their mothers and grandmothers years ago. The old-fashioned setting is rarely changed, the quaintly carved and twisted gold being considered extremely beautiful. The old brooches and rings are especially sought for, and bring remarkable prices when found.

The man who whistles seldom swears; it is the people who are compelled to listen to him that do the swearing.

How to Wash With Care.
Hard water, strong lye, or inferior laundry soap are responsible for the yellow clothes seen in many households. To wash properly, fill a tub nearly full of hot water, put the white clothes in first, rub with Ivory Soap, scald, rinse and starch. When dry, sprinkle and fold down over night and iron carefully.
